Press release – České dráhy report net income of CZK 26 MM for the first half of 2011

In the first half of 2011 České dráhy earned CZK 26 MM, according to the Czech accounting standards. Also the operating indicator EBITDA (earnings before interest, tax, depreciation and amortization) increased on year-to-year basis by CZK 73 MM to CZK 1,005 MM. The condition of the national transporter has been significantly improving in the last two years and thanks to that the company is able to balance the year-to-year price increases of operating inputs.
